Prosecutor of Perugia RG 4071/2017

To the attention of:

Dr. Gemma Miliani , Deputy Prosecutor Prosecutor of Perugia

Egregia Dr. Miliani,

in relation to my previous reports regarding EyePyramid links between the investigation and the American Russiagate , I would point out the interview on **The print of George Papadopoulos**.

I also take this opportunity to let you mind that, as a result of my pec the 8th March to **Chief Prosecutor of the Prosecutor's Office in Rome Giuseppe Pignatone**, pec also be forwarded to the Prosecutor of Perugia to your attention, I only received a reply from the secretary of Dr. Pignatone which, on grounds absolutely specious , Intended to reject the receipt of the pec. At present, therefore, the Public Prosecutor of Rome continues to conceal and make unavailable different evidence to my defense, reiterating a daily offense ; means that are absolutely necessary to the same defense so much for the conduct of the appeal as to the upcoming hearings held at the Court of Perugia . The invitation therefore, to **use appropriate precautionary measures to stop the illegal activity in progress** and to make available that evidence to this defense; reiterating the urgency of this need.

I take this opportunity to extend warm greetings, Giulio

Occhionero
